## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 9, 10, 13, 14, 17, 18, 21 and 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 9 and claim 10, line 2 “the extension” has no definite antecedent basis; and in line 2 “the end of said arm unit” is vague.

Claims 13, 14, 17, 18, 21 and 22 are indefinite in that they depend from an indefinite base claim.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 7-22, so far as definite, are rejected under 35 U.S.C. 102(b) as being anticipated by Harrision.

The work plates are 66, for a keyboard, and 77, for a mouse, which are pivotally attached to arm units 46 and 48 and selectively positionable in a sitting or standing position (the arms are vertically adjustable at 24, 26).

## ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bujaryn, Ko et al, Peters, Sher et al (060), Sher et al (658), Howard, Brennan, Ostergaard, et al, Trimmell, Rossko, Noisuex, McNally, Bryan, Dearing et al, Santa Rosa et al, Goodall, Avedissian et al, De Miranda, Christensen (939) and Christensen (317) all teach devices similar to that of the instant invention.
